## CREATIVE VENTURES

Designing quilts allows to play with colors, shapes and layouts to create functional works of art. I machine piece most of my projects but I enjoy hand quilting, the decorative stitching to hold the layers together. The tactile nature of the process is also what I enjoy about knitting, creating a finished blanket or scarf with a with a string of yarn and my knitting needs.

# GETTING TO KNOW...

Nicole Choiniere-Kroeker

◆ PROBLEM SOLVER ◆ PERPETUAL LEARNER ◆  
◆ CREATOR ◆

Baking is a source of true joy. I enjoy trying new recipes and perfecting my tried and true ones. For the past two summers, I've learned from the experts at the King Arthur Baking School in Vermont. I've learned so many new techniques and how to make some of the classics from my favorite baking show, The Great British Bake Off. What can I bake for you? Bakewell Tart? Victoria Sponge? Scones? Cornish Pasties?

Life is what you bake it

## GET OUTDOORS

Playing golf is a great way to spend time no matter how my game is going. For me it's not about the score, it's about the people I play with.

My newest ventures are paddleboard and rowing. Both let me enjoy being out on the water even when it's too cold to swim.
